Professional Summary

IT Support Engineer with 3+ years of hands-on experience providing end-user, desktop, and IT operations support in multi-system environments. Cisco Certified Network Associate (CCNA) with strong knowledge of networking fundamentals, LAN troubleshooting, IP addressing, and routing basics. Experienced in Windows OS deployment, hardware maintenance, and on-site user support. Seeking an on-site IT Support / Service Desk / Junior Network role.

Professional Experience

IT Support Specialist – SAFI Institute of Advanced
Study(Autonomous)

Key Contributions :

2022 – present

- Provided daily IT support for desktops, peripherals, and lab systems, ensuring minimal downtime and uninterrupted academic operations
- Installed, configured, and maintained Windows operating systems, applications, updates, and device drivers across multiple endpoints
- Diagnosed and resolved hardware and peripheral issues related to desktops, interactive flat panels (IFP), printers, and accessories
- Performed LAN troubleshooting, CAT6 cable crimping, cable labeling, and structured network maintenance
- Assisted in IP address planning and configuration of network settings across lab and administrative systems
- Supported installation and basic configuration of routers, switches, and wireless access points
- Conducted cable testing and systematic network fault isolation using structured troubleshooting methodologies
- Assisted in OS imaging, deployment, and configuration of multiple lab systems
- Coordinated IT equipment procurement by collecting quotations, liaising with vendors, and ensuring infrastructure compatibility
- Served as Computer Lab Administrator, ensuring system readiness, access control, and adherence to usage policies
- Supported secure computer-based examinations (NTA & ACCA) including network validation, bandwidth checks, and workstation configuration
- Delivered on-site technical support with timely incident resolution, improving overall system reliability and user satisfaction
